ABOUT

I'm a Computer Science student with a strong interest in full-stack development. I enjoy turning ideas into scalable and user-friendly web applications, with a focus on clean code and innovative solutions.

EDUCATION

Bachelor of Science in Computer Science 2026 – Present
Virtual University of Pakistan

Intermediate (Pre-Medical) 2023 – 2025
Punjab Group of Colleges · Grade A+, 83%

Secondary School Certificate (SSC) 2021 – 2023
Government High School · Grade A+, 91%

PROJECTS

Bazm bazm-online-frontend.vercel.app
A Pakistan-first fashion e-commerce platform with a complete storefront, wishlist, cart and checkout, plus role-based tools for managing products, orders and inventory. Built with TypeScript, Firebase and Cloudinary. Runs as a demo with a sample catalog and test checkout.

MODO Homes modohomes.pk
A live e-commerce store for premium bath and kitchen fixtures, delivering across Pakistan, with a separate admin panel for managing products, plus search, wishlist, cash on delivery, order tracking and animated water effects. Built with React, TypeScript, Tailwind CSS and Firebase.

BeatFlow spotify-application-jade.vercel.app
A full-stack music streaming app with listener and artist accounts. Listeners stream, like and save songs to playlists; artists upload songs and release albums. Built with React, Node.js, Express.js and MongoDB, with JWT login, hashed passwords and cloud media storage. Visitors can try it as a guest.

SKILLS

HTML · CSS · JavaScript · TypeScript · React · Tailwind CSS · Node.js · Express.js · REST APIs · JWT Auth · Google OAuth · MongoDB · PostgreSQL · Git · GitHub · VS Code · Vercel · Claude · Codex · WordPress · Figma · CRUD · API Integration · Debugging · Computer Networking · SEO

CURRENTLY LEARNING

Docker · Kubernetes · Generative AI · DevOps
